## PETERBORO MATBOARDS

### SPECIFICATIONS:

- ✓ High Alpha Cellulose Conservation Core
- ✓ 100% Conservation Backing
- ✓ Buffered with Calcium Carbonate
- ✓ Acid and lignin free
- ✓ PPFA Class II

## Peterboro Designer Fabrics

This exciting line of Peterboro Fabrics and Suede conservation matboards has been developed exclusively for custom picture framers by Peterboro Matboards. The extensive collection of colors and textures has been created to allow framers the flexibility to be both creative and functional. Whether you are framing sports memorabilia, family heirlooms, or fine art, Peterboro Designer Fabrics are sure to have the perfect color and texture to suit your project.

### Designer Suede

The attractive changes in color and texture, characteristic of suede, add a new dimension of matting. Whether it is used in shadow boxes, photos, art or precious heirlooms, suede will always have a touch of elegance.

### Real Linen

Designed to give a more textured look, these linens are expertly woven from high quality real linen yarns of neutral color and varied thickness. The changes in yarn diameter give a wonderful tone on tone textured effect to the matboard.

### Kobi Silk

These silks possess both elegance and sophistication. Their timeless texture and rich color saturation make them easy to use and they will elevate any design choice.

### Linen

Peterboro's Linen matboards represent the best in a linen matboard, a smooth flawless finish with consistent coloration and sheen. Unlike our Real Linens that present a rougher, courser weave these linens are more refined and offer a crisp, professional look.

### Weave

The medium texture of these fabrics along with the combining of light and dark threads creates depth and subtle contrast.
