Museum and Conservation
Solid Core Specifier

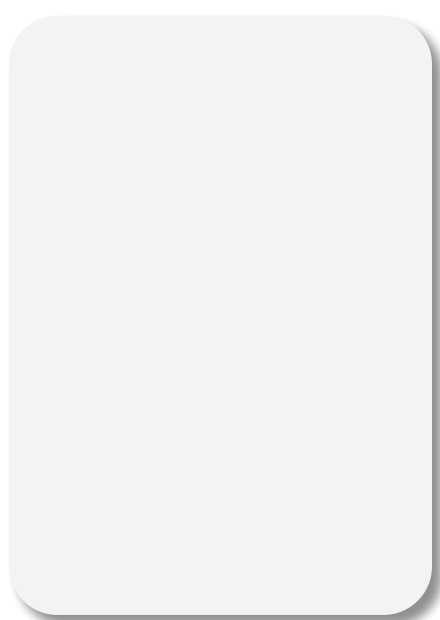

PPFA Class I

Highest Level of Preservation Framing

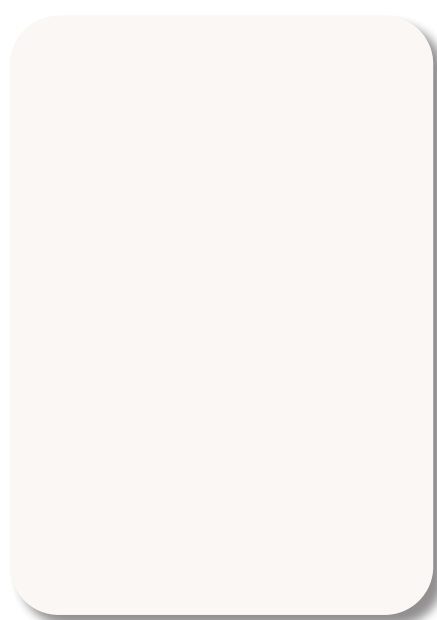

For the highest level of preservation framing, our 100% cotton Museum boards are made from the purest form of cellulose, cotton. Requiring little chemical processing, these naturally acid free matboards offer a history of performance. Each board in the Peterboro Museum family adheres to the stringent specifications set out by both the Fine Art Trade Guild and Professional Picture Framers Association.

Specifications

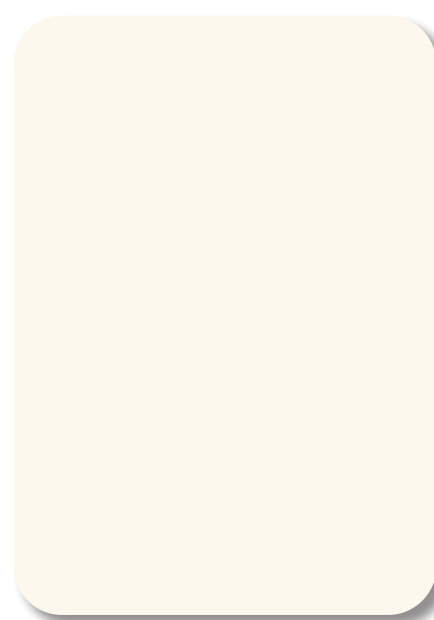

- 100% cotton fiber
- Solid color throughout
- Traditional 4ply thickness
- Buffered with calcium carbonate (Unbuffered white available)
- Naturally acid free
- Available in 4 and 8 ply thickness in the most popular colors
- PAT compliant

PPFA Class II Most Preservation Framing

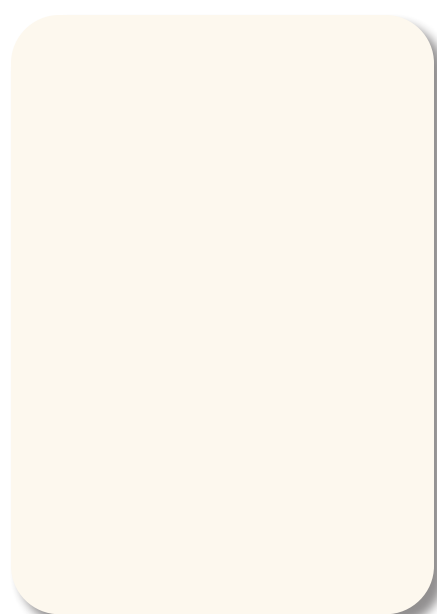

Conservation Solid Core matboards are made from 100% virgin Alpha Cellulose, and are made to the same high quality standards as our Peterboro Conservation line. The Solid Core product line offers conservation matboards that are a single solid color throughout, offering a similar look and feel to our 100% cotton Museum matboards. Solid Core matboards are a great alternative for when a cotton matboard is not required.

Specifications

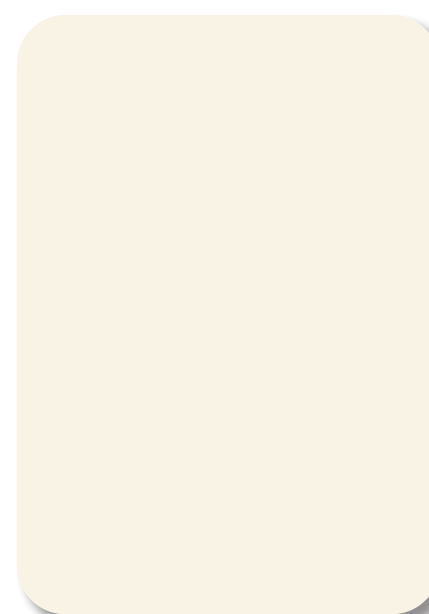

- High quality Alpha Cellulose fiber
- Acid and lignin free
- Pigmented, solid color throughout
- Buffered with calcium carbonate
- Thickness + 1.5 mm (4ply) and 3 mm (8ply)

PETERBORO'S COMMITMENT TO QUALITY

Our commitment to quality ensures that each of our products are made with the utmost quality in mind. We do this by focusing our efforts on the following areas:

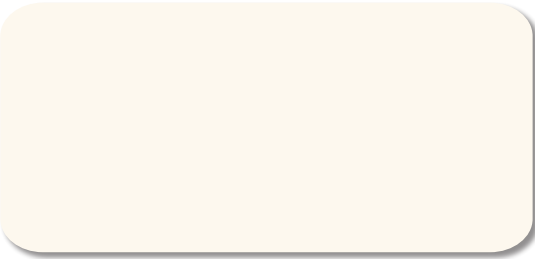

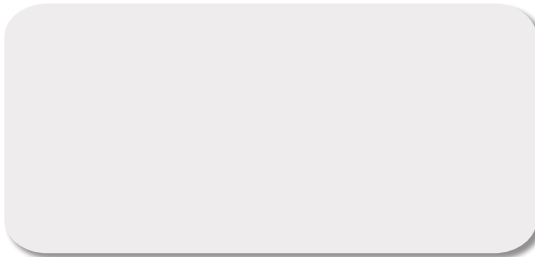

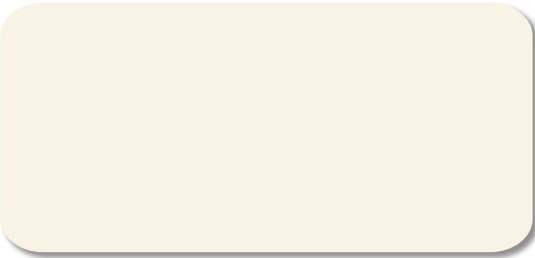

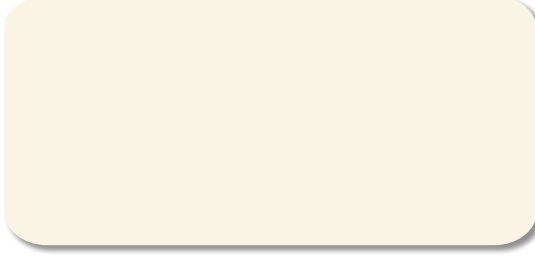

- Premium material sourcing
- In-house laboratory testing of all materials
- Stringent Quality Assurance procedures and inspections
- Industry leading manufacturing techniques
- Environmentally controlled warehousing
- Paramount care in material handling and packaging
